

Driving the digital transformation of the construction sector

Supporting you in your digital transformation

- [Boost your skills and capabilities](#)
- [Apply the Digital Twin Flex Standard](#)
- [Explore the Global BIM Network](#)
- [Adopt the UK BIM Framework Standards and Guidance](#)
- [Explore our Digital Twin Journeys research projects](#)

Tools to help you to do it

- [Find out how a better use of data can support the Hub's Platform for Design, Manufacture and Assembly and the Hub's Value Toolkit](#)
- [Digital Compliance](#)
- [Lexicon](#)
- [Adopt the Line of Sight methodology](#)
- [Explore Government Soft Landings tools and guides](#)

Building the evidence base for why you should do it

- [Read the Digital Innovation Imperative](#)
- [Apply the Gemini Principles](#)
- [Explore the Four Futures, One Choice scenarios](#)
- [Find out the Value of Information Management in the Construction and Infrastructure sectors](#)
- [Explore our research programme on the Knowledge Base Navigator](#)
- [Find out about working groups and their outputs](#)

Outcomes

The Construction Innovation Hub's Information Management programme gives industry the tools to achieve the following [Transforming Construction Challenge Targets](#):

RAISE PRODUCTIVITY BY	15%
REDUCE LIFETIME EMISSIONS BY	50%
REDUCE WHOLE LIFE COSTS BY	33%
DELIVER PROJECTS	50% FASTER

**FIND OUT HOW WE'RE
ADVANCING INDUSTRY**
