Management
Framework

Active
Building
Centre

Active
buildings

- 1 Create a critical mass of buildings
- 2 Smart and Connected Active Buildings Evidence Framework
- 3 Active Buildings as 'Energy Positive Agent'
- 4 Aggregate Active Buildings at National Scale
- 5 Adapt the Active Building Technology Portfolio to Tackle Existing Stock
- 6 Create a sustainable National Centre of Excellence
- 7 Deliver an ecosystem for Active Buildings

Funded innovation

Information

- Data interoperability
- Digital integration platform
- From BIM to machine control
- AR for efficiency
- IoT for site plant
- IoT and concrete curing
- IoT and thermal performance
- LIDAR for cranes

- Robot clusters

Machine learning

- AI and logistics
- AI for programme prediction
- AI and BIM
- AI and component tracking
- AI for site safety
- AI and progress monitoring
- AI for quality
- Alexa for sites

- 3D concrete printing

Product and process

- Panelised housing
- DfMA for housing
- Modular Homes
- Industrialised homes
- Energy active prefab
- Smart piles
- Frame optimisation
- Modular steel

- Non-prismatic concrete

AIMCH

CONSTRUCTION
SCOTLAND
INNOVATION
CENTRE

L&Q

- UK's largest house builder and second largest social landlord coming together with their supply chains to industrialise housebuilding
- Using challenge approaches to reduce cost, boost productivity (40% target), increase safety onsite, improve quality (75% less rework) and 30% faster
- Bringing in wider housebuilding community, and establishing data to prove the business case

Impacting 35,000 homes a year

UK Research
and Innovation

<https://www.aimch.co.uk/>

Redesigned steel frame for school buildings,
standardised across two major suppliers:

- 40% reduction in cost
- 52% faster assembly
- 57% reduction in weight (40% reduction in emissions)
- Exports - being used overseas

Market uptake:

- Steel frame on Gen. 5 procurement framework for DfE
- Interest for other buildings types
- Digital configurator
- Will extend to other components

New R&D competitions

£36m total R&D funding available

Two competitions will run in parallel:

£26m Demonstration fund

£10m Collaborative R&D fund

Spending Profile:

£27m in FY20/21

£8m in FY21/22

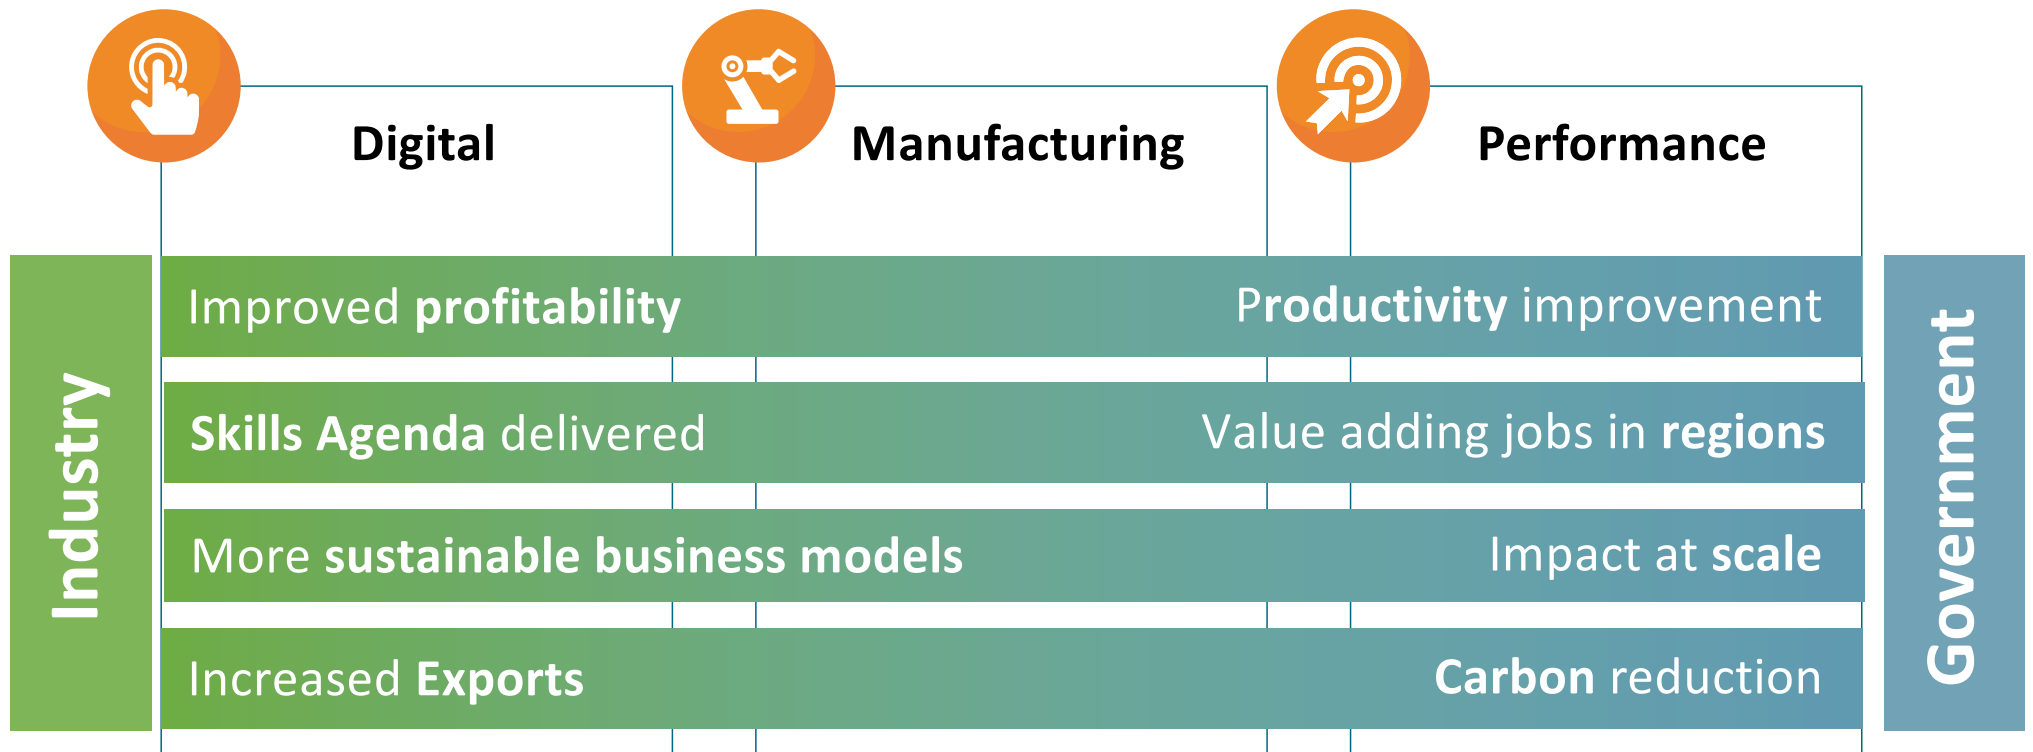

£26m Demonstration

- Opened 28th August 2019
- Closes 6th November 2019
- Projects start 1st April 2020

£10m CR&D

- Opened 28 August 2019
- Closes 30th October 2019
- Projects start 1st April 2020

Summary

* More houses	* More rail capacity	* Improved car journeys	* Cheaper energy	* Better public services
